

# Sistema K1 / K1 System

Sistema a parete composto da montanti, ripiani e accessori per la realizzazione di librerie, cabine armadio ed espositori.  
I montanti sono forniti in 5 diverse altezze da 57 cm fino a 249 cm; i fori sono realizzati in modo da consentire il posizionamento dei ripiani ogni 6 cm circa a partire da 18 cm (18, 24, 30, ... cm).  
I ripiani e i contenitori hanno quattro larghezze: 40, 60, 75.5 e 90 cm. A richiesta sono disponibili altri colori e tagli speciali sia per i ripiani che per i montanti.

Wall System composed by uprights, shelves and accessories to make bookcases, wardrobes and exhibitors.  
The uprights are provided in 5 different heights from 57 cm to 249 cm; the holes in it are made to allow the positioning of the shelves each 6 cm approximately from 18 cm (18, 24, 30, ... cm).  
The shelves and containers are available in four standard widths: 40, 60, 75 and 90 cm. Other colors and special cuts for the shelves to the uprights are even available under request.

Libreria / Bookshelf

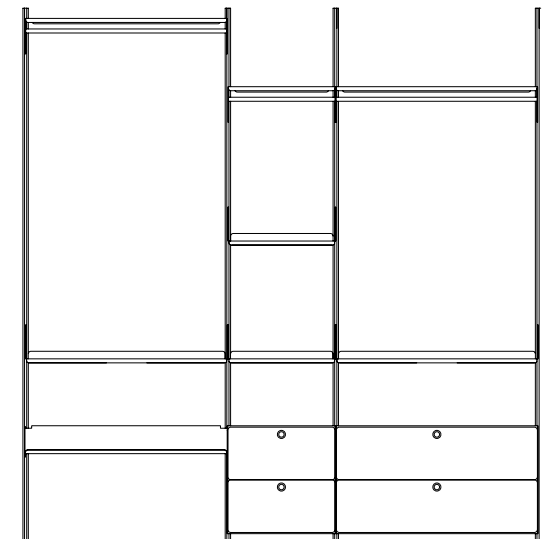

Guardaroba / Wardrobe

## FINITURE / FINISHINGS

-  Alluminio anodizzato / Anodized aluminium
-  Bianco lucido RAL 9010 / White bright RAL 9010
-  Nero opaco RAL 9005 / Mat Black RAL 9005
-  Verde semilucido RAL 6003 / Green semi gloss RAL 6003
-  Bianco Opaco RAL 9010 / Mat White RAL 9010
-  Arancione Opaco RAL 2002 / Mat Orange RAL 2002
-  Legno Rovere / Oak Wood
-  Legno Noce Canaletto / Walnut Wood

**INGOMBRO:** Per calcolare la larghezza della struttura, considerare sempre 2 cm di ingombro dei montanti esterni (1 cm + 1 cm)  
**OVERALL:** To calculate the width of the structure, always consider 2 cm of space outside of the uprights (1 cm + 1 cm)

## Montanti / Uprights

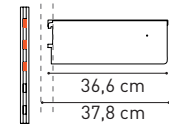

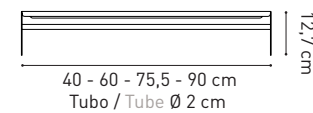

Lasciare sempre min. 3 cm tra le pareti laterali e i montanti esterni della struttura  
 Always leave min. 3 cm between the side wall and the first upright of the structure

## Ripiano Semplice / Basic shelf

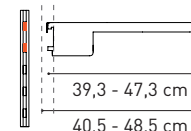

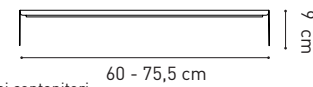

## Ripiano appenderia / Shelf with hanger

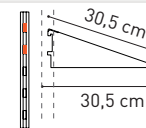

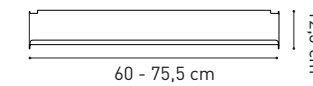

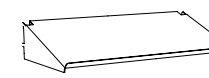

## Ripiano profondo / Deep shelf

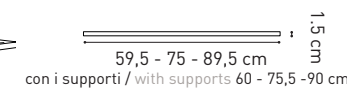

Si allinea al piano grande in legno e ai contenitori  
 It aligns with large wood panel and containers

## Ripiano inclinato / Inclined shelf

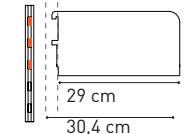

## Pianetto in legno / Small wood panel

## Supporti laterali in alluminio / Side aluminium supports

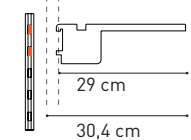

Si allinea al ripiano semplice.  
 It aligns with simple shelf.

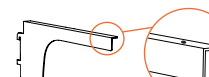

## Supporti inferiori in alluminio / Lower aluminium supports

Si allinea al ripiano semplice e ai contenitori  
 It aligns with simple shelf and containers

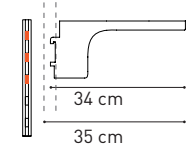

## Coppia di reggipiani / Pair of brackets

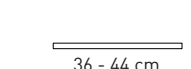

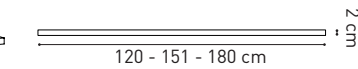

Fori per fissaggio piano  
 Fixing shelf holes

Si allinea al ripiano profondo e ai contenitori  
 It aligns with deep shelf and containers

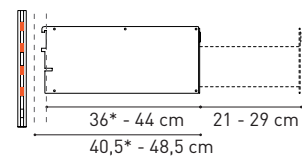

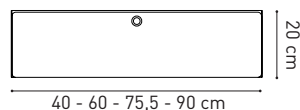

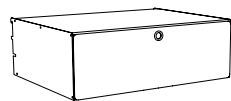

## Piano grande il legno / Large wood Panel

# Guida alla manutenzione - Maintenance guide

## COMPONENTI IN ALLUMINIO

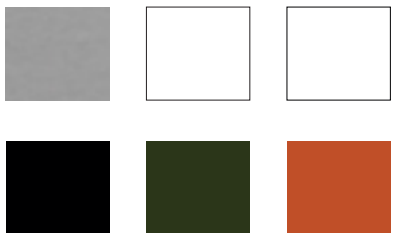

Manutenzione ordinaria con detergente per piatti e un panno umido.

Sono severamente vietati prodotti a base di acetone, aceto o ammoniaca, spugne abrasive e prodotti a base di creme abrasive o particolarmente aggressivi.

## ALUMINIUM COMPONENTS

Ordinary service with dish detergents and a humid cloth.

Acetone, vinegar or ammonia based and particularly aggressive products are strictly forbidden, as much as abrasive sponges or lotions.

## COMPONENTI IN LEGNO:

Il legno è un materiale vivo, caratterizzato da variazioni naturali a livello di tonalità e struttura, quindi l'incidenza della luce e dei raggi solari comportano normali variazioni di colore. Le superfici sono sigillate da una vernice di alta qualità, è vivamente sconsigliato sottoporre il legno ad aria troppo umida o troppo secca. In caso contrario, il legno si deforma malgrado la vernice applicate.

Per la pulizia ordinaria è sufficiente una passata con un panno morbido o al massimo con un panno leggermente umido. L'utilizzo di prodotti abrasivi per la pulizia (panni in microfibra, spugne per lucidare ecc...) rischia di graffiare le superfici. Le macchie di prodotti alimentari di origine animale grassa o vegetale, bevande e altri liquidi acidi possono compromettere definitivamente la superficie.

## WOODEN COMPONENTS:

Being an alive material, wood is characterized by natural variations of hue and structure, and artificial or sun lights can cause colour variations. Surfaces are protected by a high quality coating: don't expose wood to either too wet or too dry air or it will deform despite the applied paint. A soft cloth, dry or a bit humid, is sufficient for ordinary cleanings. The use of abrasive products (microfiber cloths, polishing sponges, ...) is not recommended as they might scratch the surfaces. Stains from vegetal and animal food, or from drinks and other acid liquids, might compromise the surfaces.
